

Albert Rilliard

J'effectue mes recherches au LIMSI (Laboratoire d'Informatique pour la Mécanique et les Sciences de l'Ingénieur), unité propre du CNRS (UPR3251), associée aux Universités Paris-6 et Paris-11.

Dans le cadre de mes recherches, je participe à plusieurs projets de recherche :

```
#tutu #print("TUTUTU") #$toto =  
file_get_contents('https://intranet.limsi.fr/tmpbiblio/Revues_edition.html');  
#echo(utf8_encode($toto)); #echo("AUAUUAU")
```

Projet AMPER

Une partie de mes recherches est liée au projet d'Atlas Multimédia Prosodique de l'Espace Roman (AMPER). Vous pouvez obtenir plus d'informations sur ce projet en vous rendant sur sa [page officielle](#). Des outils sont disponibles sur [cette page](#).

Projet ANR PADE

Le projet Prosodie Accents Dialectes Expressivité (PADE) cherche à mesurer la variation prosodique liée à des facteurs comme les accents régionaux, les buts expressifs du locuteurs, dans différentes langues ou dialectes. Pour plus d'informations, rendez-vous sur le [wiki du projet PADE](#).
